

KeyBox Keycontrol. Intelligent key cabinets.

KEYWIN6

KeyWin6 is the latest version of the market's most comprehensive administrative tool for securely managing keys and valuables. One or more administrators can manage key cabinets and keys with the highest possible precision, from anywhere in the world. Choose between the KeyWin6 IoT cloud service based on IoT technology through Microsoft Azure or an on-premises software installation depending on your needs.

Models for Keycontrol.

Control up to 924 key positions in one cabinet

Your Keycontrol system can include everything from a few up to several thousand keys. You can easily add strips and key space to your key cabinet, or expand the key management system with more cabinets, to meet your growing needs. Pair the IntelliPin and key together, then place them on the strip on the wall or in a cabinet.

Each IntelliPin carries a unique ID, which means you can easily identify the status of individual keys directly from the web application KeyWin6.

The key cabinets have a display with a simple menu and search function. The cabinets are also equipped with battery backup, alarm and 14 key slots on each strip.
